Electrical

We are able to supply, install and commission complex electrical power, control and monitoring systems. Our fault finding, verification, installation, acceptance and commission skills are unrivalled in the industry and provide considerable added value to any project.

Unique Electricals has over the years carried out various electrical works successfully to the full satisfaction of our customers.

Our expertise covers the following areas:

- Ø All Electrical & Instrumentation for new and repair works
- Ø Marine electrical and design works
- Ø Cable try installation , cable laying and termination
- Ø Testing and commissioning
- Ø Turnkey projects i.e project management installation and supplies

Insulation

UNIQUE has an established track record in designing and installing specialist insulation products.

These range from structural fire protection, acoustic and thermal protection products. The products meet international maritime classification society safety standards.

Complex sheet metal design and manufacture in carbon steel and non ferris materials.

Unique Electricals specializes in insulation. During the years Unique Electricals has undertaken various insulation projects. Types of thermal insulation undertaken by Unique.

- Ø Hot and Cold insulation
- Ø Thermal & A60 insulation
- Ø Sound barrier insulation
- Ø In-situ polyurethane foaming
- Ø Pre-fabricated cladding and mattress
- Ø Boiler refractory and contracting

It has excellent performance as insulation material and heat preservation material. It is widely used for many industrial fields. Ceramic fiber resist temperature as high as 2300°F. This material is lightweight and has very low thermal conductivity. Ceramic fiber provides excellent insulation at high temperatures and it is a good substitute for asbestos products in many insulation and sealing applications.

The rock wool insulation is a kind of mineral wool insulation. Rock wool is part of the insulation class containing the rock wool, slag wool and fiber glass. Industrial applications of mineral wool include thermal insulation, filtration, soundproofing and germination of seedlings.

Through the individual fibres conduct heat very well, when pressed into rolls and sheets their ability to hold air makes excellent heat insulation and sound absorbers.

Marine Accommodation

We have a team highly skilled men, supervisors equipments and a wide network of suppliers. We are able to undertake the following marine accommodation works:

- Ø Insulation (Thermal A60, Fire & Acoustic)
- Ø Wall panel
- Ø Ceiling panel
- Ø Accommodation door
- Ø Modular test
- Ø Window
- Ø Deck Covering (underlayment & finishing)
- Ø Furniture (wooden, steel SUS)
- Ø Sanitary ware & fixture
- Ø Warning sign, name plate & IMO signage
- Ø SUS Furniture in galleys

Mechanical

UNIQUE has an established track record in mechanical aspects and satisfaction of the customers.

Our specialization:

- Ø All types of pumps servicing
- Ø Servicing Pump with Motor
- Ø All type of winch Servicing (Mooring & Anchor)
- Ø Hydraulic winch & pump servicing
- Ø Hydraulic cylinder remove & refit servicing
- Ø All types of valves servicing
- Ø Cooler servicing
- Ø All type of machinery alignment
- Ø Pump with motor dialogue alignment
- Ø Thrusters servicing
- Ø Hydraulic Crane servicing
- Ø Machinery installation for new-con vessels

Workshop Facilities

Unique has its workshop

- Ø Work Shop 2000 Sq ft
- Ø 5 Ton Capacity of overhead crane
- Ø CNC Cutting
- Ø Rubber paint coating

Fabrication jobs for steel and structural works, steel structures, steel fabrications.
